REASONS FOR ALLOWANCE

1. Claims 1, 2, 4-10, and 12-24 are allowed. The following is an examiner's statement of reasons for allowance.
2. Regarding claim 1, prior art fails to disclose or fairly suggest a sealed electron beam source for an imaging tube, including a source housing comprising a non-apertured source window forming a sealed structure, that separates a source interior from an external vacuum cavity with said source housing and having a first voltage potential, wherein said source window comprises feedthroughs for a coolant to flow therein and absorb heat from said source window, in combination with all the limitations in the claim. Claims 2, 4-9, 21, and 22 are allowed by virtue of their dependency.
3. Regarding claim 10, prior art fails to disclose or fairly suggest an imaging tube, including a sealed electron beam source external, separate, and sealed from a rotating target and separating a source interior from a vacuum cavity containing said rotating target, in combination with all the limitations in the claim. Claims 12-16, 23, and 24 are allowed by virtue of their dependency.
4. Regarding claim 17, prior art fails to disclose or fairly suggest a method for supplying and directing electrons on a target within an imaging tube, including sealing a source housing from an external vacuum cavity that is within the imaging tube, and at least partially filling said vacuum cavity with a low-pressure gas, in combination with all the limitations in the claim. Claims 18-20 are allowed by virtue of their dependency.

Conclusion

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
